Happy Friday! Hope you have your coffee ready, sweet project for you from Trends Alley. And here are [some tips for landing it](#).

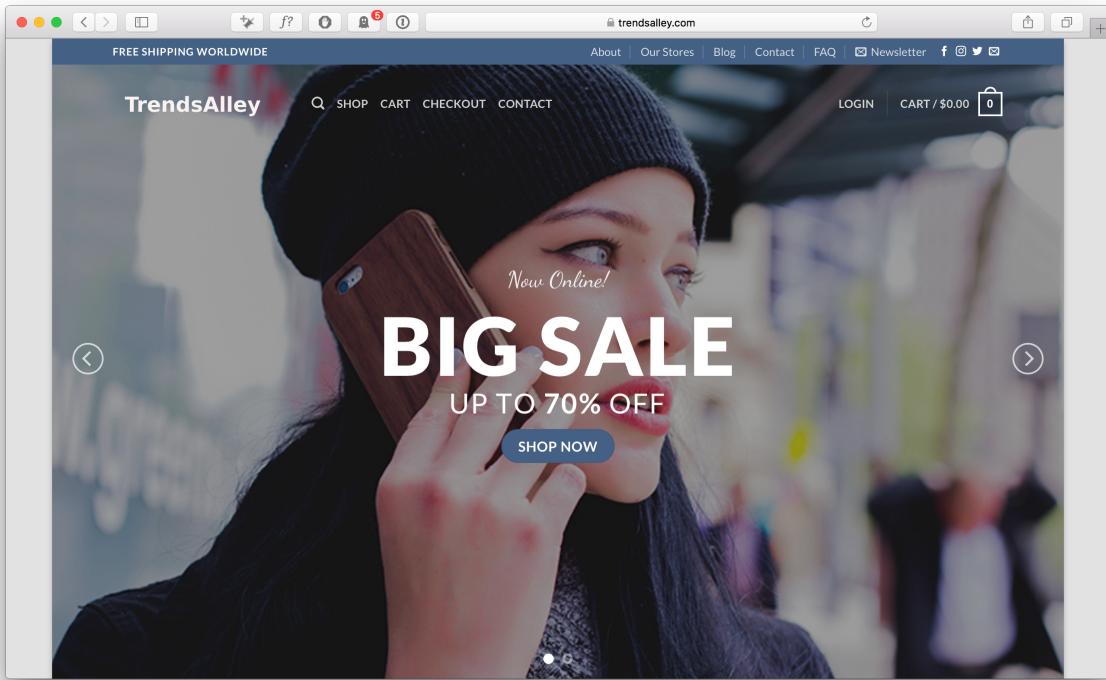

Remember, all projects are remote and have great budgets! Here's the project/company info:

Trends Alley
Email: leo@trendsalley.com

We're looking for an individual web developer for ongoing improvements to an existing WordPress site, running an Avada theme. Should you excel in the trial period, you can expect a steady stream of work over the next year.

- Excellent communication skill
- Expert in WordPress, preferably familiar with Avada, Porto, Divi, Bridge Theme

How to apply...

Click the blue button below to send a relevant work sample and cover letter that will make you stand out. Make sure to also include anything else requested in the project description above.

Pro-tip: Extra effort and personal touches will hugely increase your chances. Show how much you want **this project** and not just any project.

[Email Trends Alley](#)

[Click here to see more tips on how to successfully send a first email.](#)

Reminder: Folyo does not receive referral fees from any company. Our only incentive is to find you a great project and help you win it.

If you end up landing this project, hit reply and let me know! (I'll send you a dope free t-shirt!)

Love,
Folyo (Robert)
